2027 RESIDENTIAL ANNUAL NOTICE FOR THE CITY OF PICO RIVERA

RESIDENTIAL MANDATORY RECYCLING & ORGANICS SERVICES

California Senate Bill (SB) 1383 aims to reduce organic waste sent to landfills statewide by 75%. Residents and businesses must help meet this goal by properly sorting organic waste for recycling. **Organic waste in landfills produces methane, a climate super pollutant 84× more potent than carbon dioxide**, and air pollutants that can contribute to health conditions such as asthma.

By properly sorting organics, recyclables, and trash, residents can help reduce methane emissions, avoid fees, and support a healthier community.

As the exclusive franchise hauler for the City of Pico Rivera, NASA Services takes collected organics to compost and anaerobic digestion facilities that create fuel, energy, compost, mulch and other beneficial products.

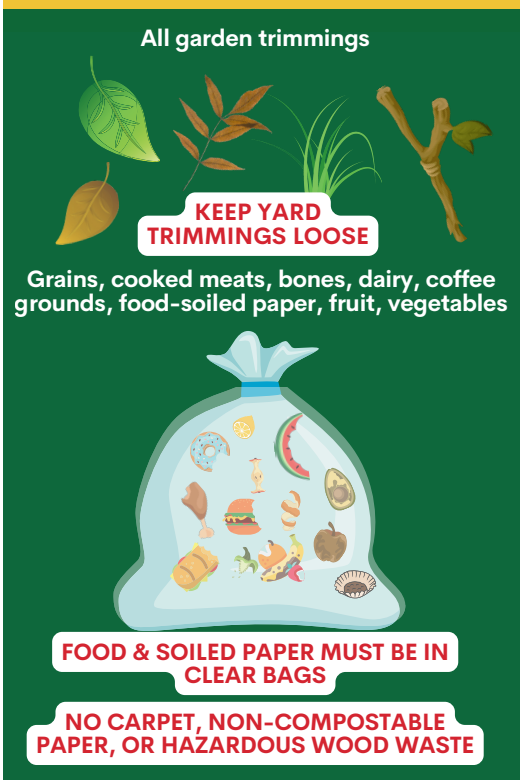

SORTING IS THE KEY!

NASA Services' program allows commingling of food waste and food-soiled paper with yard trimmings.

All residents MUST participate in the established program for **Green**, **Blue**, and **Black** containers by **sorting** materials as shown here. For items not listed, contact NASA Services for guidance.

ORGANICS: GREEN

RECYCLE: BLUE

TRASH: BLACK

FREE RESOURCES TO HELP REDUCE ORGANIC WASTE IN PICO RIVERA

Visit the Pico Rivera Organics Recycling Website to Learn More

The easiest way to manage organic waste is to avoid creating it. Avoid overpurchasing or preparing excess food, and avoid impulse buying. When possible, use refillable containers and reusable bags, and learn to properly store and label food items.

Get a **FREE kitchen food pail** from the City to collect food scraps. Pick yours up at City Hall while supplies last. The Smart Gardening program offers **FREE digital education resources.** For **FREE in-person composting and gardening workshops**, follow the City's social media feeds.

2027 Residential Annual Notice

GUIDELINES FOR UNCOMMON WASTE OR BULKY ITEMS

There are some items that you can't place in regular curbside carts for trash, recycling, or green waste. Use these guidelines to help properly dispose of uncommon or bulky waste.

Electronics & Corded Devices. Drop off electronic waste at local Sunada Recycling events. For more information, contact Sunada Recycling at 310-627-9285. You can also participate in County collection events. View the County's collection schedule here: LACSD.org/Services/Solid-Waste/Household-Hazardous-Waste-Collection/One-Day-Collection-Events.

Household Hazardous Waste (HHW) includes materials, such as paint, sealant, clear coating, antifreeze, batteries, auto fluids, cleaning products, flammables, herbicides, motor oil, pool supplies, light bulbs, sharps, and propane. This list is not exhaustive and includes other hazardous materials. Visit PaintCare.org for paint recycling and disposal information, or LACSD.org for LA County HHW collection events. HHW can also be dropped off at the Washington Boulevard S.A.F.E. Center. The City of Pico Rivera will host its own HHW collection event in February 2027, more details to come.

Medical Waste & Needles. Contact NASA Services at 888-888-0388 to request a sharps collection container.

Bulky Waste. Pico Rivera residents are eligible for **10 FREE bulky item pickups per year, with up to 4 items per pickup**. Pickups can also be used for electronics and corded devices, carpet, non-compostable paper, and hazardous wood waste. Schedule a pickup before your weekly trash day by contacting NASA Services at 888-888-0388.

Construction & Demolition. For debris and waste from construction or demolition projects, residents must obtain a permit from the City of Pico Rivera before placing a NASA Services bin in the street. Permits are available at the City of Pico Rivera offices at 6615 Passons Boulevard. You can call 888-888-0388 or send an email to CustomerService@NASAServices.com to rent a bin from NASA Services, which will help ensure compliance with local and state recycling mandates for construction and demolition (C&D) debris and waste.

Holiday Tree Recycling. You can **recycle natural, unflocked trees from December 28, 2026, through January 22, 2027**. Remove all artificial decorations before recycling. Trees up to 7 feet tall do not need to be cut into smaller sections. Place trees curbside next to the green bin.

2027 ANNUAL CLEAN-UP EVENT

Your 2027 Clean-Up Event is a great opportunity to dispose of uncommon and bulky waste. Set a reminder based on your waste service pickup day. Contact NASA Services for more details.

Regular Trash Day	Your Clean-Up Day
Monday	Saturday, April 17
Tuesday	Saturday, April 24
Wednesday	Saturday, May 1
Thursday	Saturday, May 8
Friday	Saturday, May 15

2027 HOLIDAY COLLECTION SCHEDULE
